

VINAMRATHA SHETTIGAR

Software Engineer

vinamrathashettigar1@gmail.com | 437-248-6249 | [LinkedIn](#) | [Portfolio](#) | Canada

Software Engineer with 10+ years of experience building enterprise applications in payments and financial services. Expertise in PHP, Laravel, REST APIs, SQL databases, and modern cloud deployment practices.

Technical Skills

- **Backend & Web Technologies:** PHP, Laravel, REST APIs, JavaScript
- **Databases:** MySQL, MS SQL Server
- **DevOps:** Docker, Git, GitHub, GitLab, CI/CD, Render, Railway
- **Tools & AI Assistants:** Postman, Jira, ChatGPT, GitHub Copilot, Claude
- **CMS & Platforms:** Joomla, Magento, WordPress
- **Development Practices:** Agile/Scrum, SDLC, Production Support

Professional Experience

Software Developer III (Moneris-Toronto)

Nov 2020-Nov 2024

- Developed and optimized PHP-based REST APIs supporting secure communication across 350,000+ merchant locations, portals, and payment terminals, implementing API token management and RBAC to enhance security and access control.
- Developed customer management and multi-currency conversion services using PHP and MS SQL Server, supporting global payment operations and customer administration workflows.
- Resolved critical production defects and performance issues through root-cause analysis, debugging, and cross-functional collaboration, improving application reliability and operational stability.

Technologies: PHP, REST APIs, MS SQL Server, GitLab, Postman, Jira

Web Developer (Arista Networks-India)

Sep 2016-Jul 2019

- Developed and maintained PHP/MySQL backend solutions and custom Joomla components supporting enterprise workflow automation and content management.
- Built reporting dashboards with filtering, pagination, and Cron-based background processing, enabling automated workflows and efficient data analysis.
- Integrated third-party APIs and implemented security and auditing features, including 2FA, RBAC, SQL triggers, and logging, improving compliance and operational visibility.

Technologies: PHP, MySQL, Joomla, WordPress, JavaScript, REST APIs

Web Developer (Mentorware-India)

Nov 2014-Sep 2016

- Developed PHP/MySQL backend features for e-commerce applications using the LAMP stack.
- Enhanced order processing through shipping validation, data capture, and PDF generation features, improving efficiency and delivery accuracy.

Technologies: PHP, MySQL, Magento, Linux, LAMP

Web Developer (Intern/Junior Role) (SLNTGS Software Solution-India)

Aug 2014-Oct 2014

- Developed PHP/MySQL-based authentication and backend features for web applications.
- Assisted with debugging, testing, and feature enhancements for web applications.

Projects

FinFlow Digital Wallet Platform

Technologies: Laravel, PHP, MySQL, REST APIs, Docker, GitHub, Render, Railway

GitHub: [FinFlow Repository](#) **Live Demo:** [FinFlow Live App](#)

- Designed and deployed a Laravel-based digital wallet platform with secure peer-to-peer transfers, REST APIs, MySQL, and Docker, leveraging GitHub, Render, and Railway for cloud deployment.

Education

Bachelor of Engineering (Computer Science)

The Oxford College of Engineering, Bangalore, India

Graduated: June 2013
